# BAKNOR. LOCALIZED GLOBAL SUPPLY

Leave time zones, ordering, financing, and logistical headaches behind. Our custom electronic component inventory management solutions keep your inventories localized but off your balance sheet so you can apply your capital where it counts: producing world-class products. Reap the benefits of global supply management – and stay competitive.

## AUDITED AND QUALIFIED GLOBAL SUPPLY NETWORK

Baknor has established strategic partners throughout the world, allowing us to bring you the latest technology at the best price. We select and qualify suppliers based on specific requirements such as volume, technology, geography, and quality. You will benefit from our many long-term business relationships without the need to travel the globe to nurture and develop them yourself.

## REDUCE YOUR ACQUISITION COSTS THROUGH BAKNOR

Our end-to-end supply chain solutions provide the benefits and flexibility of commodity economics for custom components. We provide you with the ability to postpone ownership of custom components through a variety of flexible logistics tools, such as VMI, JIT or Kan Ban. Each step in our process contributes to your ability to compete profitably.

## WHAT GIVES BAKNOR THE EDGE?

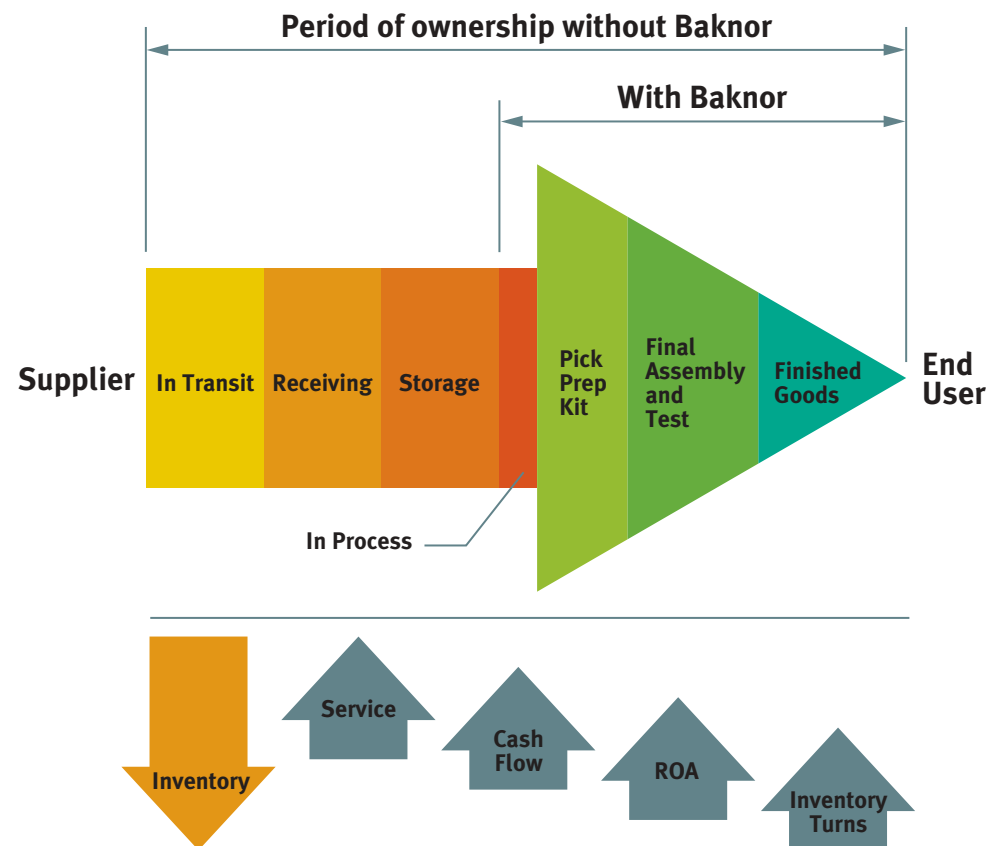

Offshore supplier management is what we do full-time. Our unique distribution services provide value features to custom components such as scheduling flexibility, web visibility, next day delivery, local customer service and technical support, and a selection of flexible financing tools.

## POSTPONE OWNERSHIP OF CUSTOM COMPONENTS.
